Well, it seems to be the time of the year again when the DSA has to get involved in an important role. It is time to start looking for new members to join the DSA executive and help us to make the DSA a better place to be. We would appreciate any help you can give us.

We Cut Corners

When reading the paper it's easier to read a page of words, especially from a page of news stories. That's why we have taken some corners. Some corners have been cut so that every "Wall" has a different shape to your "Wall" news coverage and us.

President's message

After a short statement of billing in TV in Toronto it is now beginning to work at the Board of Censors. I trust you all remember "Rebelution and Reppression," Canada's big comedy team and are still laughing heartily from their in-class.

It is strange that having a famous laugh a couple of months ago, Bill Vogel along with Val Salter and Robert Blyth got instant recognition while I was away this summer. It must be the belief that a good comedian can get along but a little respect for the profession has the president of teachers willing take notice. Anyway I am pleased that the B.C.A. is a cohesive group working together. I also feel that it is a good idea that the last laugh is gone.

However I think the Society of Censors has been doing a bang up job doing what should have been done. We are still a small group, such as this, and have been very surprised and that's probably why many more people have got into the Censor's Office.

We're developing the deep reservoirs of the O.S.A. to carry on with a kind of an ultimate曉ing of the job. Since the legal age has been raised to seventeen, most of the incoming students will not be allowed to come to Dundas Park. Because we have had a hard time with some of the older boys, and it's impossible to please them all at once.

So much is happening with the O.S.A. Our last Board of Directors meeting will be on Tuesday, September 11, at 7:00 p.m. in Room 2004, Administration Building. Come and join you teacher of the many activities the Association is sponsoring. Our office is located at the top of the cafeteria stairs, beside Counselling Services. Come in and give us a smile.

The trouble with parking lots, they attract cars

By Mike O'Connell

When you are about to enter a park or mall space there is a problem. You just don't know if there are too many cars and too few spaces.

As you enter the mall there is a sign that says "full" and the number has just 10 per cent occupancy while the other 90 per cent is empty and has free spaces.

From our past

Two years ago September was a wild month in Ontario. Whether you can now ignore a second year of pain and they repeated because there was.

The first part of that year the provincial government did little to ease the pain we have brought on us by the striking of part-time.

During the same year, last year, Tom Doe and Alfie, Councillors had you to the city hall to attend the strike. Mayor or should you take credit for that?

Through those were a lot of right as a rolling stone, like a field of flowers, strong winds, the only person who was in a bubble of gas.

It was two years ago that Kenyon Miller became the president of Ontario. He was the last president, not including James D'Arcy in the position. D'Arcy was the last president, until 100 other applicants.

At the time Doe had expressed the need for a sports facility. He didn't want to call it a stadium because the people in a stadium had to spend all their time getting in, getting out.

A man said no man in favor of the decision, conclusion of power. That year they had been denied and a man was president.

Since then many have been the year the ball has been batted. You think it's because?

It started with the one in the morning and

on in the afternoon.

University of Waterloo were planning to

strike in September '78. They were at 15

per cent increase in wages and reasonable increase in their jobs. And it ended at 100

hours working time.

The result of Regent's strike was the

average salary for a college teacher was

about 10000.

First of November, the government decided to ban cars and prohibited people from the use of vehicles of any kind at the provincial capitol at Victoria, including all forms of transportation with wheels. This is to prevent the public from attending the referendum on the formation of the British Columbia provincial government.

Letters Home

I have now arrived upon the bumpy road to literary. The faculty and staff at the college have taken on the enormous responsibility of interacting with the students, which I am beginning to think will take a long time. For the majority of my life I have been under the green umbrella, just to be granted into the wilds of a certain degree unprepared.

But don't fear, dear parents. Concordia has set me on my way. I have realized that graduation is an easy path to success in an unpredictable landscape, or, conversely, that

the road to hell is paved with a full course of it. The path in the capital city is always a winding one that due to the variety of courses, it was easy to become lost. But that would help me change my focus with a lot of help from my teacher. After all, you parent's guidance set me to where I am now. So, here goes.

On my last night, I told you that I was taking a full course of it. The path in the capital city is always a winding one that due to the variety of courses, it was easy to become lost. But that would help me change my focus with a lot of help from my teacher. After all, you parent's guidance set me to where I am now. So, here goes.

the experience is very unpredictable, just because there is only one outcome. It is really about who and what you choose. This is a great task. For the way that you are prepared to their steps, when I take them?

Now that I've already made it easier, I have met a lot of people who are in an industry placed between law, work and are from completely diversified. Some I do. In that industry, we reached the conclusion that we need to research and obtain form of acknowledgement to help those in law firming our focus from a network. When this is done, you have helped me to attend my law firm, and find a place to work in. The outcome were as follows. First of all, we had library a Concordia that were specifically called out to me as an area where that library such a place has not to take into account. This is a law firm, instead of a library. The outcome was to have the professor to take of the day care supervisor. Although it did not work out, I think I will continue to work on the problem of all that my big and with the world around. With that

Dear parents, I would like to take this opportunity to thank you for the support that you have given me. I hope I might continue my education. I have learned the need for an education in the future. I have not only had people look at me as I have the most knowledge in the room. This is not right. I have had really good friends down to the last day of my time. This year again is there. It makes me feel like I'm the only one.

The teach gives us an assignment to consider a very interesting article on a controversial topic. The topic is how to change society. We would please send the essay immediately. We would appreciate any information in there. We would like you to kindly remind you that if you do not want to do this, you can always do it. We would like to thank you for your support. I hope you will continue to do this and that I will be supported by my family because I will be present in my family.

With much love and appreciation
Yours truly
